PO Box 660
Barrington, NH 03825

Dear Select Board Members,

On April 22, 2021, Camp Fireside's Executive Director, Robert Lyons and I attended a Conservation Commission meeting to discuss concerns about potential environmental impacts to our waterfront property on Daniel Cater Road.

Significant concerns exist relative to excessive numbers of unauthorized trailered boats being launched from our property, potential introduction of invasive species and other hazardous materials into the lake, roadway erosion, unchecked littering, parking and traffic congestion, and concerns regarding camper and public safety for those members of the public who choose to purchase a beach pass. No trespassing and parking signs are posted, and the Barrington Police respond quickly when there is a need.

It was suggested by commission members and the Select Board representative present at the meeting that Camp Fireside undertake efforts to secure its property, since the board accepted that the land in question is Camp Fireside's private property and can do as it wishes with the land, within the bounds of the law. Recognizing that this course of action may cause concern for some members of the public, we are letting you know that we will close off the access area in question by the end of May 2021.

Please let me know if you have any questions.

Sincerely,

Marcia Allison
Chair, Board of Trustees
